

SPDSTUDIO
SUSTAINABLE . PLANNING . DESIGN

**Corporate Sustainability Responsibility (CSR)
Statement**

At SPD Studio, we are dedicated to creating cities and communities that are truly inclusive. Safe, resilient and sustainable for now and in the future. We know our mission is bigger than us and will take a collective effort from all members within our wider community.

We understand the power that comes from a shared vision of a sustainable future and are committed to providing our clients with superior architecture, planning, and design services. We strive to create innovative and sustainable designs that are both functional and aesthetically pleasing. We are dedicated to providing the highest level of quality and customer service, and we are committed to the ethical principles of the architectural profession. We believe in the importance of creating spaces that not only meet the needs of our clients, but also benefit the surrounding environment and community. We are proud to be a trusted partner in creating beautiful and lasting designs.

Environmental Vision

At SPD Studio, we have a future-focused mindset that values, and raises our clients' awareness of, sustainability and protecting the environment. We continuously encourage our inter-disciplinary team to develop a shared vision of positive environmental aspirations.

Assessment

We have an eco-sensitive approach to design and construction, taking into account a site's ecological value and its natural features. We also strategically use materials that require minimal travel energy from source-to-site and minimize project waste and pollution.

Implementation

Our designs always consider sustainability through environmental impact, construction materials specification, performance, and resource efficiency. We consistently strive to find an optimal balance for project implementation to be environmentally conscious and designed with the future in mind.

Our goal is to create exceptional spaces that enhance the lives of those who use them.
